### ABOUT CAM CAM COPENHAGEN®

Timeless design uniting the classical and the contemporary

Cam Cam Copenhagen creates premium, sustainable interior design for little loved ones. Combining contemporary Scandinavian simplicity with a classical architectural heritage, poetic prints, and a delicate colour palette, Cam Cam Copenhagen offers enriching environments for families. From small everyday essentials to furniture meant to last a lifetime.

Cam Cam Copenhagen is a family company run by Danish-American architect couple, Sara and Robert. Cam Cam Copenhagen originated in 2012, shortly after their daughter Olivia was born. Sara was searching for products for baby Olivia that combined timeless design with sustainable production. When she could not find what she was searching for, Sara decided to make it herself. And so, Cam Cam Copenhagen was conceived.

### SUSTAINABLE AT HEART

Sustainability is key to Cam Cam Copenhagen. It was the reason why, back in 2012 when the company was founded, and still is today!

Cam Cam Copenhagen uses 100% organic cotton in our textile products, accompanied by recycled polyester in selected items for greater resistance towards stains and outdoor use. The furniture collection is produced in Europe from sustainably sourced wood and child-safe VOC-free and waterbased paint.

Cam Cam Copenhagen is a GOTS-certified and OCS-certified company, working only with GOTS-certified textile manufacturers to ensure that the products are produced from organic materials, in the eco-friendliest manor, and under socially responsible manufacturing conditions.

Cam Cam Copenhagen is FSC®-certified. FSC helps take care of forests for future generations. Our products are made from materials coming from certified, responsibly managed forests where no more trees are harvested than the forests can reproduce, and where animals and plant life are protected, and from other controlled sources.

FSC also ensures socially responsible working conditions.

Children grow fast. So do their needs. Cam Cam Copenhagen strives to accommodate this reality and defy throw-away culture by offering products that are multifunctional and follow the child's development by changing function alongside the shifting needs.

Thus, encouraging families to make sustainable choices by opting for products meant to last a lifetime through their timeless design, innovative functionality, and high-quality materials. Letting longevity lead the way to a sustainable lifestyle.

Cam Cam Copenhagen donates to charitable organisations around the world.

### WANDERING STAR

To see a world in a grain of sand,

And a heaven in a wild flower,

Hold infinity in the palm of your hand,

And eternity in an hour.

William Blake, Auguries of Innocence

Time to be open, time to be free. Time to be near, time to go far.

A new beginning is finally here.

The AW21 collection Wandering Star salutes the awaited unfolding of our collective dreams of wandering the world anew. Of being close and becoming close. Of travelling the open sky like shining stars across the universe lighting up the darkness on their way.

Inspiration comes from near and far, from Eastern promises, warm winds of the South, and magical Northern light. From the unseeming beauty of sun-ripened flowers and gently flowing leaves outside our window.

For Cam Cam this is a timeless truth, but this season, more than ever, we've allowed our hearts and minds to wander freely, drawing inspiration from North and South, East and West in a collection that juxtaposes polarities and unites the wonders of nature from all corners of the world.

Dreams of new potentials, hopes of expanding our horizons, longings for exploring and embracing the world flourish freely when we have been granted the privilege of seeing the world from various corners.

Of joining hearts with fellow wanderers from afar, offering us a new perspective on our own place in the universe.

Allowing us to see a world in a grain of sand, a heaven in a wildflower.

And finally, we can let our bodies follow our minds and go out in the world to meet inspiration where it arises. Bring it home in our hearts and turn it into enchanting tales to be told to little loved ones.

Hoping they will grow up to be wandering stars, open-minded imaginers, lovers of closeness, curious seekers of inspiration all around.

Insatiable in their wanderlust and search for stories without endings.

Fictions in words and visuals that enchant us with their elliptic magic, enlightening our dreams, invoking our imaginative view on the world to awaken our shared humanity.

# FURNITURE

Cam Cam Copenhagen's exclusive European-made Furniture captures the essence of Danish design, where immaculate function and superior quality meet subtle expression. The FSC-certified pieces are produced from high quality solid wood and MDF coming from responsibly managed forests and other controlled sources. Designed with innovative multi-functionality and durability in mind the furniture items offer a long and sustainable lifespan. Timeless in its Scandinavian refinement, every piece of Cam Cam Copenhagen Furniture is destined to become a

### FROM NEWBORN TO TODDLER

LEVEL 1

is for the newborn baby who cannot roll over or sit up yet

LEVEL 2

is for the agile baby and small toddler

LEVEL 3

is for big toddler, who can jump out of the bed

### HARLEQUIN BABY BED

The Harlequin Baby Bed is a beautiful and multi-functional piece of furniture to be used and treasured for many years.

The bed combines a classical and timeless aesthetics with an intelligent design featuring several innovative advantages destined to bring comfort and closeness to the family. The Bed can be adjusted to three different heights.

As another essential benefit of the design, the front side of the bed can be removed effortlessly to create an open-sided bed, and it can be clicked back on again just as easily. This makes it possible for parents to have close contact with the child when tucking it in and reading the bedtime story. When the child has fallen asleep, the side can be put back on again silently, so the child is safe and secure without risk of falling out of bed. Additionally, this functionality makes it easy to change the bed linens and make the bed perfectly.

Finally, with the front side off, the bed can be used as a cosy couch - also after the child outgrows the bed which makes it a truly sustainable piece of furniture with a very long life cycle. Pack size: 1 pc / pack Dimensions: W90 x L160cm Mattress size: 90x160cm (not included) Flatpacked. Shipped in 2 boxes. Easy to assemble Fits the bigger children, from approx. 3-10 years

### THE BED THAT GROWS WITH YOUR CHILD

The ever-refined Cam Cam Copenhagen signature Harlequin silhouette embellishes the Junior Bed, destined for bigger children from 3 years and up. Designed with sustainability and longevity in mind, the length of the bed can easily be transformed from 160 cm to 200 cm by replacing the side panels and thus be long enough for a regular adult sized single bed mattress.

The intelligent functionality and timeless design allow the bed to grow with the child for many years. End panels and side panels

RR PRICE

### HARLEOUIN WALL HUNG CHANGING TABLE

With an ever-present architectural approach to design, Cam Cam is founded on an ambition to create long-lasting products that improve daily life for families all over by being practical in their function, sustainable and safe, and last but not least beautiful to look at The Harlequin Wall Hung Changing Table combines the essence of these values.

With so many of us living in the cities in apartments, Cam Cam's ever present goal of designing products for babies and kids that harmonize with the rest of the interior is more important than ever. Positioned on the wall, the new Changing Table saves space all the while being both functional and refined, which makes it perfect for smaller apartments where space is limited and many different activities in the home overlap. The integrated multifunctionality allowing the changing table be transformed into a regular cabinet after the diaper changing phase is over, ensures ultimate life-cycle and minimal waste which makes it a truly sustainable piece of furniture.

The Wall Hung Changing Table is produced in EU from FSC-certified wood

# HARLEQUIN WALL HUNG CHANGING TABLE 2022

## FEEDING

Mealtime means family time. Shared moments where we gather around the dinner table to relax, enjoy tasty meals, and talk about the day ahead or gone by. For the little ones, it's also the time for sensory stimulation and motor skills development; trying new tastes, touching new textures, and eventually learning the challenging skill of eating by yourself. Cam Cam Copenhagen's new Feeding products contribute to making mealtime a pleasurable moment for the entire family by offering pretty and practical dinnertime accessories. The allergy-friendly Silicone Tableware series is both child-safe and stylish featuring intelligent design details to facilitate the eating process for both child and parents. The collection of bibs presents a variety of styles, colours, and materials, to match the needs and

Materials: Outer fabric: 100% Organic Cotton. Filling: 100% Polyester

Packaging: Gift box

### MY FAVOURITES

The employees of Cam Cam Copenhagen are true experts when it comes to knowing the range by heart.

Discover which AW21 news they most covet for their own children.

CHRISTEL MELSKENS, 35 Global E-tail Account Manager

Mother to Clara, 4,5 years old, and Ellinor, 2,5 years old

#### THE WALLHUNG CHANGING TABLE

Because it is a state-of-the-art piece of furniture. It simply just looks so great, and it fits in all homes. I almost wish that my 2,5 year-old didn't just stop using diapers.

#### THE WOODEN CASH REGISTER

I am definitely getting the cash register, as it fits the age of both my girls (2 and 4 years old). They both love role-playing - they play that they run their own restaurant or their own ice cream shop, so the cash register would fit perfectly into that setting. Also, I really like that it's made of (FSC certified) wood, which should make it much more long-lasting, as it unfortunately happens often that my (clumsy) kids drop their toys on the floor.

### THE CHANGING BACKPACK

Because it is simply so practical and functional and perfect for when we are on tour to keep the water bottles and lunch boxes cold. I think even my husband wouldn't mind carrying it.

#### HARLEQUIN SHELF WITH HOOKS

The new Harlequin Shelf with Hooks offers perfect decorative storage for all my daughter' costumes and bags. She will also greatly appreciate the extra advantage of being able to place all her small treasures on the shelf where her little brother can't reach them.

### BANDANA BIB

Having a nice big assortment of bibs is a must-have with a one-year-old child in the household. The new Bandana Bib has just the perfect design for little boys. I also love the multifunctional aspect; it's not only a practical essential but also a sweet accessory so it can be used as a scarf when it's no longer needed as a bib.

# JUNIOR BEDDING - FOREST

My son just changed from baby duvet to junior duvet, so I'm thrilled to give him the super soft Junior Bedding in the new Forest Print. It's such a sweet and poetic print in calm colours and with plenty of cute animals to talk about and include in our bedtime stories.

LOUISE STORM, 35 Production Coordinator

Mother to Vilde, 5 years old, and Georg, 1 year old.

CHRISTINA BEKKER, 34 Graphic Designer Mother to Hannah, 4 years old and expecting a little sister in luly 2021

### LUCA STORAGE BOXES

We live in an apartment with a small kid's room so we're always searching for clever storage solutions for all the toys lying around. The new Luca Storage Boxes are designed in a beautiful and timeless aesthetics that fits every room of our home and at the same time they're very practical since you can stack them and thus store more in less space. Another great advantage is that the box can also be used as a stool which makes it very versatile.

### AURORA BEDDING

I absolutely love the French sophistication of the Aurora print - its delicate drawings and warm colours; so my daughters will definitely get matching Baby and Junior Bedding in Aurora.

### COFFFF MACHINE

Our oldest daughter Hannah loves to play café and she serves us coffee all the time so the new Coffee Machine is a must-have to make her feel like a true barista.

# SUSTAINABILITY AND MATERIALS

# ORGANIC COTTON

Cam Cam Copenhagen uses 100% organic cotton as a primary resource, since this is one of the only natural resources for textile production which can be completely organic. Organic cotton is grown without chemical fertilizers, pesticides, and insecticides - all of which carry toxins that can harm the environment. All cotton used in Cam Copenhagen's products is certified by GOTS and OCS.

### GOTS

Cam Cam Copenhagen is a GOTS-certified company working only with GOTS-certified textile manufacturers.

The GOTS-certificate (Global Organic Textile Standard) represents a guarantee that the product is produced from the most environmentally conscious materials and under socially responsible circumstances. GOTS is globally recognised as one of the strictest standards for organic textile production. GOTS sets the scale high when it comes to demanding a safe and humane working environment as well as requiring textile products to contain as many organic fibres as possible.

Cam Cam Copenhagen aims at 100% organic fibres in all cotton products.

### **FSC**

Cam Cam Copenhagen is FSC® certified. FSC® is a global, non-profit organization dedicated to the promotion of environmentally appropriate, socially beneficial, and economically viable management of the world's forests. FSC® helps take care of forests for future generations. Look for our FSC®-certified products; wooden furniture and toys, and paper and cardboard stationary, storage and toys.

### OCS

The Organic Content Standard Certification is a certificate given to prove that a product has met organic standards throughout its journey from raw material to the end-product. The OCS 100 logo is given when a product contains at least 95% organic material. The OCS blended logo is given, when a product contains a smaller percentage of organic material blended with for instance wood, poly-filling, or a music box.

### RECYCLED POLYESTER

Cam Cam Copenhagen uses recycled polyester. A durable and sustainable material containing no harmful substances and leaving only a minimal carbon footprint. Underlining thus Cam Copenhagen's dedication to environmental responsibility by recycling and extending the life cycle of products.

# NATURAL RUBBER

Cam Copenhagen uses pure natural rubber from Hevea rubber trees in our Baby Teethers and Bath Toys. Natural rubber is a highly durable material which is 100% sustainable and biodegradable. It is soft, flexible, and child-safe, containing no toxic chemicals. The production of natural rubber has a minimal impact on the environment during the harvesting, manufacturing, and recycling processes.

### SILICONE

Cam Cam uses silicone for our Dinnertime series of tableware, placemats, and bibs. Silicone is an allergy friendly and sterile material, ideal for food contact. It is easy to clean, either by hand or in the dishwasher. Naturally, the silicone used in our products is child-safe and contains no harmful phthalates and other harmful substances.

# RECYCLED PACKAGING MATERIALS

Cam Cam Copenhagen uses recycled plastic, paper, and cardboard for all product packaging. Recycled materials reduce the waste of natural resources for production.
